

## Summer Aid/Loan instructions 2020-2021

- Financial Aid is packaged over the long terms in the academic year (Fall/Spring) unless a student is enrolled in a specialty program that requires summer attendance. In those cases the student aid is packaged to include the mandatory summer enrollment.
- For students enrolled in specialty programs that do not require summer attendance no summer financial aid will be awarded, including student loans.
- For students not in specialty programs that mandate summer attendance summer enrollment reports will be run and aid awarded to eligible students when enrolled in summer courses.
- Summer enrollment must include coursework that leads to the completion of the requirements of the student's current program of study at WC.
- The majority of awards will be made from the Pell grant program for those students eligible for leftover or Year-Round Pell grants. Other aid, such as TPEG, is not guaranteed, and is awarded if available on a first-come, first-served basis.
- Student loans will be considered for students who apply for them. Students must have annual/aggregate loans available, must be enrolled in the minimum mandatory 6-hours, must have completed the relevant FAFSA, Entrance counseling and Master Promissory note.
- Summer loan offers will be made in the maximum amount available based on student eligibility. Student will have to log in to their student portal at Coyote Connect and accept, modify or decline the loan offered.
- While summer courses may begin early or late in the summer term, all charges for enrollment will be made at the beginning of the term, and aid will pay for total enrollment in summer after the first census date enrolled. If subsequent courses are dropped before they begin and the student becomes ineligible for the payment received, the student will be responsible for the overpayment of funds; and must repay the funds to Weatherford College or the federal government, as required.
