

WC Aid Verification Instructions

Click on the WC Aid Verification link found on your Campus Connect Financial Aid page, on the tab for Admissions & Financial Aid at www.wc.edu then click on WC Aid Verification located under Financial Aid Overview, or on WC's Financial Aid Forms & Documents Page.

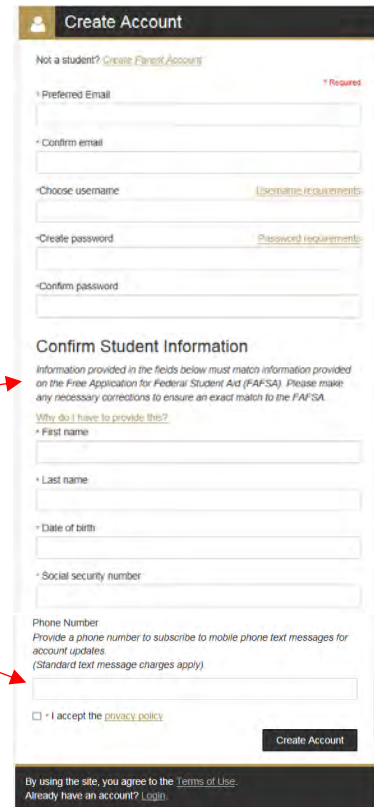

You will click on Create Account if you have not set up a login for this site yet.

Enter the requested information to create your account. Pay special attention to Confirm Student Information. It must match what was entered on the FAFSA.

Enter your phone number to receive text messages related your FAFSA

Once you have created your account, you will be able to log in and see any tasks that are needed. You can sign some of the forms electronically. If your parent needs to sign a form, you will be able to enter an email for the parent. They will create an account too and they will have to confirm their information as it is on the FAFSA as well.

You will also be able to send documents by uploading them through this site. You can either send them from a saved file or take a picture and then upload the document.

Once you have completed a task, there will be a green check mark beside that task. You will still need to watch your Campus Connect and student email for other information, such as awards, holds, balances, accept/decline loans, etc. However, WC Aid Verification is the place to go to see if we need anything from you.
